ABOUT COMPANY

DeTrash is an innovative company positioned at the intersection of waste management and technology, leveraging blockchain and web3 technologies to revolutionize waste management processes.

DeTrash has built the Recy Network as a path for humanity to build a world free of waste pollution. Through Recy App and partners, DeTrash receives and audits sustainable waste treatment reports to generate digital blockchain assets, the cRECYs. Organisations acquire and lock cRECYs to receive the Recy Compensation Certificate and FCW ESG certificates.

Join us on building a clean world.
